RE: The Statehouse District Map

Dear Commission Members,

As an independent voter on local issues, and someone who values fairness and dislikes corruption, my future voting and support will be somewhat influenced by how fairly the district map is created. Fair maps will also assure that the State government will be fairly elected, and that it will have a mandate to govern the state. That's why I suggest that the commission discard the old Gerrymandered district map and use one of the available software tools such as Dave's Redistricting App and Districtr to draw district maps.

Respectfully,

A handwritten signature in blue ink that reads "Charles Reinwald, Jr." with a stylized flourish at the end.
